Cost-focused 1U rack server with configuration flexibility

The IBM System x3530 M4 server delivers dual-socket, energy-efficient performance in a dense 1U compact footprint that offers a low acquisition price, and an innovative upgrade path to optimize cost, performance or reliability. IBM System x3530 M4 servers support the new Intel ® E5-2400 v2 series technology with greater processing and I/O capabilities, and up to 384 GB high-performance, new-generation DDR-3 memory with 12 DIMM slots up to 1600 MHz memory access speed. The System x3530 M4 rack server offers more flexible configuration options, and balances energy-efficient performance with more affordable entry price and a reduced total cost of ownership.

Buy today

The System x3530 M4 offers cost saving without compromise of quality or performance, and flexibility to meet your changing business needs. To buy IBM featured models, please select Essential server, Enhanced server, or Elite server pre-configured bundles, or select the "customize" links below to buy direct from IBM. To buy IBM Servers built just for you, please select Build Your Own, or click on the "Build Your Own" link above to configure your new IBM System x3530 M4 rack server.

Rack Server x3530 M4

* Price does not include tax or shipping and is subject to change without notice. Reseller prices may vary. IBM does not warrant non-IBM products. All offers subject to availability.

IBM reserves the right to alter product offerings and specifications at any time without notice.

IBM is not responsible for photographic or typographic errors.

** An estimated ship date will be included with your order confirmation e-mail. Availability does not determine when your order will ship since inventory status may change before your order is final (following the receipt of any credit or payment authorization) as other orders are processed. "In stock" indicates we currently have at least one of the item in stock. Orders are normally held until all the products on the order are in inventory. "Within 2 weeks" indicates that the product should be available in inventory within 2 weeks. "Within 2-4 Weeks" indicates that the product should be available in inventory in 2-4 weeks. To obtain the latest information about the availability of a specific part number, please call 1-888-SHOP-IBM.
